Verify Certification

An important part of ABMS' mission is providing information about a physician's board certification status. Whether choosing a [physician for personal care](#) or selecting a [physician to be part of an organization's professional staff](#), verifying board certification is an essential part of determining a physician's expertise and experience in a particular area of medicine.

CERTIFICATION MATTERS

ABMS maintains a database of information on more than 997,000 physicians. The information is recognized by [The Joint Commission](#), the [National Committee for Quality Assurance, URAC](#), and other agencies as satisfying for Primary Source Verification (PSV) as needed by professional organizations. It is refreshed daily with information from all 24 ABMS Member Boards.

ABMS offers these ways for the public, hospitals, health care providers, health plans and other professional organizations to find out if a physician is board certified and is keeping their knowledge and skills current through continuing certification activities.
